All glamour and boudoir sessions include hair styling and makeup application. Sessions can be shared with a friend for 50.00 extra which also includes hair and makeup styling. Allow 2 1/2 to 3 hours for a single session since these are not rushed and quite fun. Digital editing is included and a few samples are emailed to you as the editing process continues so Suzanne can get an idea of how much retouching you desire. Suzanne can easily choose the best shots/poses but some women come in after seeing their samples to choose what is edited for their set, which is fine.

You can expect pleasant extras since Suzanne is very generous with her female clients. It's all about creativity and Suzanne delivering what you desire from your boudoir session. Military discount is 10%.

Please allow several weeks for the digital enhancement process. To cut down editing time, try evening out tan lines before your session. Booking too close to your date of the 'gift giving' might not allow for all images to be completed in time!

Tips:

Wear soft fitting clothes to your session to eliminate marks on the body.

Have clean hair and face.

Paint your nails.

Do not tan before a session.

Props to personalize your session are welcome.

Bring lingerie that suits your body type.

Supplement with Suzanne's lingerie collection (in many styles and sizes).

'Stay up' thigh highs cut into the legs so use regular nylons especially if using a garter.

Support hose makes legs look heavier.

White lingerie looks best on smaller bodies.

Sexy shoes are high, strappy and spike heeled. Suzanne has several to choose from if you don't have any.

Please your man in what you wear and what body assets you show off. Please yourself as well! Variety is what makes this session fun!

Costumes usually cover too much skin as far as what men want. So, keep those to a minimum in the calendar sessions. Men prefer lingerie and plenty of skin. Suzanne knows poses that men love, and what women want. A variety of both produces a sexy photo set.

Trust Suzanne to get your 'sexy thing' going on in poses, facial looks and overall appeal.

Suzanne easily directs you throughout the session.

Have a drink if it helps relax.

Invite a friend if it makes you feel more comfortable.

Nudes or semi nudes are always an option, it's much easier than what you would expect!

Sample albums are available for viewing with photos that are not seen on the website as well as plenty that are.

Extras can be added to your session at a later date, such as more images being edited or a calendar added on etc.

Understanding the sitting fee and print pricing :

Sitting fees include the 3 to 5 hours of digital retouching on all senior and family sessions. This also includes the location shooting where 5 changes are allowed and the 2 to 3 hours given for your session time. Sitting fees are for the talent and time given that your photos will be set apart in overall appeal. Most studios do not allow you to keep your original prints but they are included with your package with Suzanne Marie. The fun everyone says they have is free. The tax is on the print portion only as the editing time is not a product, but a service. If you do not like the original prints, they can be reshot to your satisfaction.

Please see the 'touch up' section for many samples of 'before and after' editing.
